A Warm Welcome to Liverpool 2017

Welcome to Liverpool and the 97th Annual Meeting of the British Association of Dermatologists. We are once again delighted to be in the award winning ACC Liverpool.

On the banks of the River Mersey at the heart of the city's iconic waterfront, ACC Liverpool is a world-class facility in a unique setting. ACC Liverpool is a venue that's easy to reach with two international airports, 20 minutes from the UK motorway network, and closer still to trains and ferries. Liverpool is a vibrant, modern city, proud of its rich heritage and renowned for its friendly people. Please make the most of Liverpool and enjoy everything it has to offer!

Scientific Programme

This year the theme has been towards developing an integrated clinical approach to care for our patients with skin disease. We have therefore linked with the British Society of Rheumatology and the British Society of Allergy and Cutaneous Immunology as well as including a multidisciplinary session for the management of TEN in adults and children. In the full knowledge of the fact that we all have busy lives and cannot usually attend the meeting for the whole week, we have tried to include some specialised talks in the plenary sessions.

We are pleased that the Arthur Rook Oration will be delivered by Professor John McGrath (London). Professor Giuseppe Argenziano (Naples, Italy) and Dr Christian Baum (Rochester, USA), will give the first of the keynote lectures at the plenary session on Tuesday speaking on 'Time to use the dermatologist stethoscope?' and 'Changing paradigms in the classification and management of high risk SCC: perspectives from the Mayo Clinic' respectively. Wednesday afternoons programme features Professor James Elder (Ann Arbor, USA) who will update us on 'What is Epigenetics and why is it important in psoriasis'. The final keynote lectures will come from Dr Carolyn Charman (Exeter), talking during the plenary session on Thursday afternoon on 'Teledermatology and Mobile Phones' and then Professor Kenneth Tomecki (Cleveland, USA) speaking on 'Non-TB Mycobacterial Diseases'.

New to this year's annual meeting will be the introduction of iPosters. These will be positioned outside the entrance to the exhibition hall and will be showcasing the top 12 posters. We hope that these will enhance engagement between the audience and presenter.

On Monday 3rd July, we will be holding pre-conference sessions for trainees, Specialty & Associate Specialist doctors, medical students and there will be a BSD self assessment session.

Due to the success of last year's BADfest we will again be holding an evening of entertainment, food and drinks on Tuesday. We hope this will be a perfect opportunity to relax, catch up with old acquaintances and form new friendships. This event will be taking place in Hall 3 and surrounding areas of ACC Liverpool. All attendees are invited to attend.

To encourage delegates to stay until the end on Thursday, we have a new 'Hot Seat' competition within the final Plenary Session. Please stay seated and you might be the lucky one that wins an iPad!

It all promises to be a packed and memorable conference, I look forward to offering a warm welcome to all delegates and hope you enjoy the meeting!

Rion Murph

Dr Ruth Murphy Academic Vice President (2015-2017)

Expert sun protection for your skin's individual needs

Accommodation

Innov8 is the official accommodation provider for the 2017 BAD Annual Meeting. To book accommodation for this event, please visit https://aws.passkey.com/e/16473309

Арр

We will be providing a smartphone conference app for delegates to use during the conference.

The app will provide the following features;

- Review agenda & speakers
- Interactive floorplans
 View abstracts & e-posters
- View sponsors & exhibitors

BAD 2017 is grateful to Janssen for sponsoring this app.

Badges

Conference badges will be handed to delegates on registration. For security purposes name badges must be worn at all times throughout the meeting. In the event that you lose your badge, a replacement must be obtained at the registration desk.

lanssen

These new RFID badges will enable delegates to touch into sessions for CPD recording.

In addition some of the exhibiting companies may ask you to tap in at their stand or symposium. Please be aware that by doing this you will be providing your postal contact details and may receive one email from them. They will not receive your email address directly.

Banking

A cash machine is situated in the Galleria and does not charge for withdrawals.

Business Services

Located in the Galleria, the E.ON Business centre is open throughout the event.

Catering

Lunch and all scheduled refreshment breaks will be served from designated points in the exhibition hall.

Certificate of Attendance

Certificates of attendance will be issued after the meeting and sent to your registered email address. They will provide a CPD breakdown of the sessions you have attended.

Please don't forget to tap into sessions.

Cloakroom

The cloakroom is located on the Galleria. There will be a charge of ± 1.00 per item.

Continuing Professional Development Credits (CPD)

This event is approved for external credit for the CPD scheme of the Federation of Royal Colleges of Physicians of the UK. **Please tap into sessions** to receive a CPD Breakdown on your certificate to be received post meeting. Physicians should record their credits in their diaries, in accordance with the current RCP recommendations.

Exhibition

The exhibition will be located in Hall 2 of the ACC and will be open at the following times:

Tuesday 4th July:	10:00 - 17:00
Wednesday 5th July:	09:00 - 17:00
Thursday 6th July:	09:00 - 14:00

Exhibition Quiz

Exhibition quiz forms will be included in the delegate bags. To participate in the quiz, delegates must visit each participating exhibitor and answer a simple question. Participants must also obtain four answers from the patient support groups, please note you only need four from any of the patient support groups present over the duration of the meeting. All completed quiz forms must be returned to the registration desk by 14:00 on Thursday 6th July. The prizes will be announced after the meeting.

First Aid

First aid support is available onsite; please ask an ACC steward who will be able to assist you.

Beiersdorf

Beiersdorf AG, 20245 Hamburg, Germany

No Photography

The BAD has received complaints from our speakers about photography taken during presentations. Photography of patients without consent is an offence which is reportable to the GMC. Other photographs may breach copyright. Please do not take photographs during presentations. Presenters are entitled to stop their presentations and ask for offenders to be removed from the session with no reimbursement of fees.

Parking

Just a few steps from ACC Liverpool and an integral part of the venue's riverside plaza location, the 1,600-space multi-storey Liverpool Waterfront Car Park is fully secure and open 24 hours a day, 7 days a week.

Payment of Registration Fees

We would prefer delegates to pay by cheque (pounds sterling drawn on a UK bank only or by sterling bank draft) made payable to the 'British Association of Dermatologists'. Cheques in other currencies cannot be accepted. Alternatively, delegates may pay by credit card and this is encouraged for overseas delegates. Please note that we only accept MasterCard and Visa. American Express cannot be accepted.

Poster Exhibition

The poster exhibition will be located within in the exhibition hall. The posters will be numbered and a list is provided at the back of this programme.

There will be an e-poster display area showing all the posters submitted. Posters should be removed by 14:00 on Thursday 6th July. Please note that the British Association of Dermatologists cannot be held responsible for any loss or damage to a poster presented during the Annual Meeting

Registration Desk

The registration desk will be located on the Galleria and will be staffed by the BAD team during the following hours:

Monday 3rd July

Tuesday 4th - Thursday 6th July

Sponsored Symposia

The following companies will be holding sponsored symposia at the meeting:

Wednesday 5th July

07:45 - 08:30	Hall 3A
07:45 - 08:30	Hall 3B
13:00 - 14:00	Hall 3A
13:00 - 14:00	Hall 3B
13:00 - 14:00	Hall 11 B/C
18:15 - 19:00	Hall 3A
18:15 - 19:00	Hall 3B

LEO Pharma UCB Pharma Sanofi Genzyme medac La Roche-Posay Celgene Janssen

09:00 - 18:00

08:00 - 18:00

Thursday 6th July

07:45 - 08:30	Hall 4	Abbvie
07:45 - 08:30	Hall 12	Novartis

Speaker Preview

Speaker preview will be in Hall 10, please ask at the registration desk for directions. All presenters must take their memory sticks to speaker preview at least two hours prior to their presentation

Taxis

A taxi rank is located on the riverside of the venue

Trainee Evening Event

3 July 2017, Revolución de Cuba 17:30 - 21:00

The trainee evening event is a great opportunity to meet with colleagues and network in a relaxed and informal setting. Join us for drinks and food at Revolución de Cuba, a stunning two floor rum bar and cantina situated on the beautiful Albert Dock

SAS

3 July 2017, Gusto Restaurant & Bar 19:30 - 22:00

SAS Doctors are invited to an informal dinner on Monday evening. This sophisticated bar and restaurant overlooking the waterfront and Tate Liverpool couples classic Italian food with a contemporary setting.

This is a pre-booked event and tickets cost £20.00

BADfest

4 July 2017, ACC Liverpool 17:00 - 22:00

We hope this will be a perfect opportunity to relax, catch up with old acquaintances and form new friendships. This event will be taking place in hall 3 and surrounding areas of ACC Liverpool. All attendees are invited to attend.

BSDS Dinner

4 July 2017, Racquet Club 20:00 - 23:00

The British Society for Dermatological Surgery will hold a drinks reception followed by a fine dining meal at the Racquet Club.

Ticket cost: £50.00 (reduced cost for trainees: £20.00) Dress code: Black Tie

BSMD Curry night

5 July 2017, Spice Lounge 19:00 - 22:30

The British Society for Medical Dermatology are hosting a curry night at Spice Lounge. Step through the temple inspired doors of the Spice Lounge and enter a world of authentic, contemporary Indian cuisine in the heart of Merseyside's must go district. Places are limited.

This is a pre-booked event and tickets cost £20.00

BADfest

YOU ARE INVITED TO JOIN US **ON TUESDAY JULY 4TH 5PM – 10PM IN HALL 3 AND THE LEVEL 3 FOYER**

Trainee Session

Date:	Monday 3rd July
Time:	12:15-18:00
Room:	Hall 1C
Chair:	Dr Vincent Li & Dr David de Berker

Programme

12:15 - 12:55	Lunch	Upper Galleria Foyer
12:55 - 13:00		Welcome and Introduction Dr Vincent Li and Dr David de Berker
13:00 - 13:45	TPC01	Behcet's syndrome Prof Robert Moots
13.45 - 14.15	TPC02	Oral dermatology Dr Paul Yesudian
14:15 - 15.00	TPC03	ID Update: What's New in Rx Dr Kenneth Tomecki
15:00 - 15:30	TPC04	Lasers in Dermatology Dr Neil Walker
15:30 - 15:40	TPC05	Trainee Update Dr Vincent Li
15:40 - 15.55	Break	Upper Galleria Foyer
15.55 - 16:25	TPC06	Complications of Aesthetic Procedures Dr Sweta Rai
16:25 - 16:55	TPC07	Tropical and Aquatic Dermatology Dr Sam Gibbs
16:55 - 17:05	Break	Upper Galleria Foyer
17:05 - 18.00	TPC08	Introduction to Dermatoscopy and Interesting cases (Hall 3) Prof Giuseppe Argenziano
18:00 - 21:00		Trainee evening event @ Revolución de Cuba

, **B**

Speciality & Associate Specialists Session

Date:	Monday 3rd July
Time:	12:15-18:00
Room:	Hall 12
Chair:	Dr Jui Vyas & Dr Ausama Atwan

Programme

12:15 - 12:55	Lunch	Riverside Balcony
12:55 - 13:00		Welcome and Introduction Dr Jui Vyas
13:00 - 13:45	SAS01	Practical Aspects of Diagnosis and Ma Dr James Powell
13.45 - 14.30	SAS02	How to scratch an itch: Practical man Dr Prasad Hunasehally
14:30 - 15.15	SAS03	Food Allergy and Atopic eczema Dr Deidre Buckley
15:15 - 15:30	Break	Riverside Balcony
15:30 - 16:15	SAS04	An approach to the diagnosis and ma Dr Mark Goodfield
16:15 - 17:00	SAS05	Interesting skin lesions in clinical prac Dr Stephanie Arnold
17:05 - 18.00	SAS08	Introduction to Dermatoscopy and In Prof Giuseppe Argenziano
19:30 - 22:00		SAS evening Dinner @ Gusto
		Federation of the Royal Colleges of

Nanagement of Cutaneous Porphyrias

nagement of Pruritus

nanagement of connective tissue disorders

Interesting cases (Hall 3)

s of Physicians accredited session: 4 CPD credits

Mon 3rd July

Tuesday Overview

Time	Session Detail	Room	Page
08:00 - 12:00	British Society of Cutaneous Allergy	Hall 3	19 - 21
08:45 - 10:23	Clinicopathological Cases	Hall 1A	22
08:45 - 16:15	British Society for Dermatological Surgery	Hall 11	23 - 27
09:00 - 12:30	British Society for Skin Care in Immunocompromised Individuals	Hall 1B	28 - 30
10:30 - 11:00	Hot Topics	Exhibition Hall	78
10:40 - 10:55	Poster Presentations	Lower Galleria	79
11:00 – 16:15	British Society for Dermatopathology	Hall 1A	31 - 33
12:15 - 13:00	Pharma Workshop	Exhibition Hall	78
13:00 - 14:35	Guest Society Session - BSR and BRIT-PAC	Hall 1C	34
13:00 - 14:30	Senior Skin Group	Hall 12	35
13:15 - 14:15	Dermatology Teachers	Hall 1B	36
14:00 - 15:00	Online support materials for psychodermatology patients: learnings from the BAD's Skin Support project	Hall 13	37
14:30 – 15:00	Hot Topics	Exhibition Hall	78
14:40 - 14:55	Poster Presentations	Lower Galleria	79
15:00 - 15:30	Keynote Lecture: Prof Giuseppe Argenziano	Hall 1A	38
15:30 - 16:30	Plenary Session	Hall 1A	38
16:30 - 17:00	Keynote Lecture: Dr Christian Baum	Hall 1A	38
17:15 - 18:45	AGM – BAD members only	Hall 1A	
17:00 - 22:00	BADfest	Hall 3	11

British Society for Cutaneous Allergy

Date:	Tuesday 4th July
Time:	08:00-12:00
Room:	Hall 3
Chair:	Dr Jason Williams & Dr Jonny Bou
	Dr Graham Johnston & Dr Mark V

Programme

08:00 - 08:30		AGM
08:30 - 09:00		Prosser White Oration The need to prevent Contact Allergy Prof Ana Maria Gimenez-Arnau (
09:00 - 09:10	CD01	What's in your wood? A case of airbo <u>S.A. Chan</u> and D.A. Thompson
09:10 - 09:20	CD02	Contact dermatitis to a luxury leathe dimethyl fumarate <u>S. Whitaker</u> , T.M. Hughes and N.
09:20 - 09:30	CD03	A rarely reported contact allergy to a monitoring device in a child with dia <u>A. Lowe</u> , N. D'Souza and J. Hughe
09:30 - 09:40	CD04	A story of steroids: 15 years' experie <u>S. Mirhadi</u> and D.A. Thompson
09:40 - 09:50	CD05	Fragrance exposure in the U.K.: has L. Webber, D. Keith, P. Walker-Sr
09:50 - 10:00	CD06	Fishy fingers: allergic contact derma C. Mitchell, C. Reid and B. Pees
10:00 - 10:10	CD07	Allergic contact dermatitis to panthe <u>P. Mahendran</u> and S. Wakelin
10:10 - 10:20	CD08	Patch testing to meropenem followi <u>P. Mahendran</u> , J. Brinsley, S. Faro

Programme

15:00 - 15:30

Keynote Lecture - Introduced by Dr Nick Levell Time to use the dermatologist stethoscope? Prof Giuseppe Argenziano (Naples, Italy)

The introduction of dermoscopy in dermatology revealed structures and features invisible to the naked eye, providing additional morphologic information during clinical examination of a skin lesion. The technique has been applied to the evaluation of melanocytic tumors, with research efforts focusing mainly on the identification of dermoscopic characteristics of melanoma. With time, the

value of dermoscopy in improving melanoma detection was established, and the technique gained global acceptance for the assessment of pigmented skin tumors.

More recently, several investigators reported on dermoscopic patterns of non-pigmented tumors, as well as nonneoplastic dermatoses. The latter were based on the observation that, apart from pigmentation structures formed by melanin deposition, dermoscopy may also reveal vascular alterations, color variegations, follicle disturbances, and other features invisible to the unaided eye. The dermatoscope is now equivalent to the dermatologist's stethoscope, providing a clinician experienced in the technique with additional information on the morphology of skin lesions or eruptions.

 Changing paradigms in the classification and management of
 high risk SCC: perspectives from the Mayo Clinic

 Dr Christian Baum (Rochester, USA)

The term "high-risk cutaneous squamous cell carcinoma" (HRSCC) has been variably applied over time and, currently, there is no uniformly accepted definition of the entity. In recent years, a body of outcomes data has been published that quantifies risk factors for local recurrence, nodal metastasis

and disease-specific death from cutaneous squamous cell carcinoma. Based on these data, and existing paradigms for other cutaneous malignancies, we propose an evidence-based definition for HRSCC that is being applied at Mayo Clinic. Specific adjuvant and staging modalities of these tumors will be reviewed and discussed, along with implications for clinical management of affected patients.

Plenary Session

Date:	Wednesday 5th July
Time:	16:00-18:00
Room:	Hall 1A
Chair:	Dr Ruth Murphy & Dr Anshoo Sa

Programme

16:00 – 16:30 KL03

Keynote Lecture - Introduced by Dr Ruth Murphy What is Epigenetics and why is it important in psoriasis Prof James Elder (Ann Arbor, USA)

Working with colleagues from the US, UK, Canada, and Germany, we have identified 63 psoriasis-associated loci at genome-wide significance, identified differential genetic contributions to skin psoriasis vs psoriatic arthritis, and discovered genetic connections to other autoimmune diseases. Despite these successes, fine-mapping studies indicate that most (~80-90%) of these genetic signals do not encode "traditional" deleterious changes in protein structure. To address this challenge, we are studying the effects of psoriasis-related genetic variation on chromatin accessibility and gene expression in blood-derived myeloid dendritic cells and skin-homing T-cells from hundreds of psoriasis cases and controls. Such genome-wide epigenetic experiments are becoming the norm in the post-GWAS era and will be important for a variety of dermatologic diseases, including alopecia areata, atopic dermatitis, lupus, and vitiligo.

16:30 - 16:55	IL3	Invited Lecture Monitoring the liver while treating the Prof Guru Aithal (Nottingham)

- PA12 Can referral management enhance access to paediatric dermatology services? E. Gilhooley, C. Feighery and S. Collins
- PA13 A rise in cases of paediatric and young adult patients with vulvodynia C. Fleming and P. Todd
- PA14 How common are head lice? Are smartphone/tablet devices to blame? N. Hitchen, T. McPherson and D. Warnapala
- PA15 Childhood leprosy in the era of leprosy elimination: a retrospective analysis N. Khanna, M. Rai, S. Yadav and B. Khaitan
- PA16 A case series of paediatric lipoblastoma; varied presentations not to be missed S. Ziaj, R. Duncan, N. Wilson-Jones and J. Hughes
- PA17 Fighting 'tooth and nail' for the diagnosis A. Wernham, B. Ganatra, S. Cooke, S. Phillips, K. Bailey, A. Morgan, V. Hegde and J. Gach
- PA18 Successful use of secukinumab in a 12-year-old boy with refractory long-standing psoriatic erythroderma S. Dogra and T. Narang
- PA19 Poster withdrawn
- PA20 Challenges in triaging paediatric acne vulgaris referrals to a secondary care dermatology department **E. Gilhooley**, C. Feighery and S. Collins
- PA21 A rare case of folliculotropic mycosis fungoides presenting in a 10-year-old boy M. Fitzgerald and N. Roberts
- PA22 Hypopigmented mycosis fungoides: should we worry? S.A. Chan, J. Halpern, J. Yoo, M. Thomson, A. Loffeld, R. Ramesh and A. Abdullah
- PA23 Extreme phenotypes in mosaic Goltz syndrome M.A. Balogun, F. Browne, L. Liu, S.M. Lwin, S. Beswick, J.R. McGrath, C. Moss and J.E. Gach
- PA24 An unusual presentation of subcutaneous panniculitis-like T-cell lymphoma in a 15-year-old boy M. Noy and J. Crawley
- PA25 Two rare diagnoses referred as haemangiomas of the newborn foot D. Maslin, J. Nicholson, L. Hook and N. Burrows
- PA26 A diagnosis of trichorrhexis nodosa guiding a diagnosis of tricho-hepatic-enteric syndrome and a TTC37 defect C. Goodhead, A. Cant and S. Leech
- Mid-face toddler excoriation syndrome: three new cases from two unrelated families PA27 S. Srinivas, V. Gowda and C. Moss

PA28 A case of erythromelalgia with a previously unclassi ed missense mutation of the SCN9A gen C. Edwards and B. Laguda

- PA29 Final diagnosis of 112 female paediatric patients presenting with genital mucocutaneous symptoms and signs: the experience of a hospital C.M.R. Fahy, R.R. Torgerson and M.D.P. Davis
- PA30 Two cases of congenital agminated melanocytic naevus A. Shah, L. Fuller, R. Suchak and S. Law Pak Chong
- PA31 Clarithromycin as a potential steroid-sparing agent for the management of infant bullous pemphigoid S. Tso, G. Fremlin, J. Carter, R. Carr, A. Bedlow, B. Gee and F. Humphreys
- PA32 Yellow-orange coloured papuloeruptive facial lesions in a teenager with acute lymphoblastic leukaemia E. O'Brennan, R. Schkula, A. Bakshi and R. Parslew
- PA33 Paediatric hypopigmented mycosis fungoides: should we be worried? T. Chohan, S. Odedra and A. Abdullah
- PA34 Positive patch tests to nickel and cobalt in the paediatric population and their relevance: a case series of 35 patients N. Stembridge, S. Arianayagam, D. Maslin and P. Todd
- PA35 Correlating clinical signs with staphylococcus- and atopic eczema-related seromarkers K.L. Hon, J.S.C. Kung, T.F. Leung and C.K. Wong
- PA36 Do we need another symptom score for childhood eczema? J.S.C Kung and K.L. Hon
- Delivering eczema support and prescriptions in primary care: the general practitioner's viewpoint PA37 G. Jagdev, K. Kakleas, A. Aston and C. Gore

The poster viewing session will take place during the lunch break on Thursday 6th July

Plenary Session – CPD Update In General Dermatology

Date:	Thursday 6th July
Time:	13:15-17:15
Room:	Hall 1A
Chair:	Dr Nick Levell & Dr Ruth Murphy

Programme

		Dr Carolyn Charman (Exeter)
		Teledermatology and Mobile Phone
13:15 - 13:45	KL04	Keynote Lecture - Introduced by

Technological advances in mobile cameras and electronic referral pathways have opened up exciting opportunities for redesigning dermatology services. Virtual dermatology clinics are expanding across the UK, and can provide cost-effective, fast-access integrated dermatology care. The rapidly changing digital referral landscape will be discussed, in the context of recently developed quality standards for the use of mobile photographic devices in dermatology.

13:45 - 14:05	IL7	Invited Lecture How to tender for Dermatology serv Dr Tanya Bleiker (Derby) & Miss
14:05 - 14:30	IL8	Invited Lecture Photoprotection from tanning drug Prof Lesley Rhodes (Manchester
14:30 - 15:15	KL05	Arthur Rook Oration – Introduced Travels with my grant: tales of a gen Prof John McGrath (London)

Discovering the genes that are mutated in inherited skin diseases represents the first step in improving molecular diagnostics and developing translational research that can produce better treatments for patients. This talk will traverse the globe in recalling the orator's work in unravelling genodermatosis genes from South Africa to South America to South London, with frequent forays to the Middle-East as well as the middle of nowhere! Gene hunting methods, old and new, will be illustrated, and emerging benefits for patients will be highlighted.

16:00 - 16:30

KL06 Keynote Lecture - Introduced by Dr Nick Levell Non-TB Mycobacterial Diseases Prof Kenneth Tomecki (Cleveland, USA)

Atypical (non-tuberculous) mycobacteria can produce distinctive cutaneous infections. Such infections are uncommon, but the astute dermatologist can often 'lead the way' to the correct diagnosis and a good outcome. The main cutaneous pathogens are Mycobacterium marinum, M ulcerans, and the 'rapid growers.' M marinum produces the often characteristic 'fish tank' or

'swimming pool' granuloma and M ulcerans produces the large and often expansive Buruli ulcer. The 'rapid growers,' named for their quickened growth on culture, produce non-descript skin disease, ie nodules, plaques, ulcers, usually as a secondary event after surgery or trauma. Therapy can be problematic and challenging. Antibiotics are usually necessary, often coupled with surgery, for localized infection. Presentation will provide an overview of such infections and highlight trends and developments, including 'what's new' re: diagnosis and therapy.

16:30 – 17:10	IL09	TEN management in adults and children Cases, guidelines and clinical decisions Dr Daniel Creamer, Consultant Dermatologist (London) Dr Tess McPherson, Consultant Dermatologist (Oxford) Prof Peter Dziewulski, Consultant Plastic and Reconstructive Surgeon (Chelmsford) Mr Susmito Biswas, Consultant Paediatric Ophthalmologist (Manchester) Dr Andre Vercueil, Consultant Intensivist (London)
17:10 - 17:15		'Hot Seat' competition

Education, Training, Service, Audit

P16	Impact of community clinics for low-risk skin lesions: a new service J.L.C. Wong, C. Sutton, L. Edwards, M. Doke, R. Heath, K. Vithlani and R. Azurdia
P17	Acute dermatology: using Excel to excel <u>S. Stoneham</u> , T. Nelson, E. Mason, H. Cooper and B. Hughes
P18	Dermatology on-call referrals: general practitioner demand increases over 50% in 16 years <u>A.S.W. Lee</u> , N. Casie-Chetty and N.J. Levell
P19	Changing use and attitudes towards teledermatology in the U.K. over 10 years: results of the 2016 national survey <u>S. Mehrtens</u> and S. Halpern
P20	Development of an online dermatology patient educational resource: a patient survey to evaluate preferred content and evaluation of three pilot videos <u>T. Tull</u> , K. Jackson, C. Smith and A. Pink
P21	Appropriateness of skin cancer 2-week-wait referrals: a regional audit <u>A. Lowe</u> , P. Gomez and A. Salim
P22	A survey of dermatology experience and education among general practitioners (GPs) and GP trainees <u>R. Hambly</u> , B. Kirby and R. Hughes
P23	Skin is in the eye of the beholding junior doctor <u>P. Patel</u> and N. King
P24	Equivalence of the paper-based and electronic versions of the Dermatology Life Quality Index <u>F. Ali</u> , N. Johns, A. Finlay, S. Salek and V. Piguet
P25	Mobile phone photography in the dermatology department: acceptable to patients? <u>L.F. Soriano</u> , V. Jolliffe and A. Sahota
P26	Use of an aide memoire sticker improves documentation and adherence to azathioprine prescribing standards: a regional audit of British Association of Dermatologists guidelines <u>R. Montgomery</u> , K. Lecamwasam, A. Wright, N. Usmani, J. Mikeljevic, R. Strauss and A. Mitra
P27	A nationwide survey of dermatologists and genitourinary specialists about penile biopsies: time for a consensus approach? A. Wernham and T. Shim
P28	National Institute for Health and Care Excellence disease severity eligibility and treatment success criteria in the UNCOVER population: a post hoc analysis of treatment response in patients with moderate-to-severe psoriasis treated with ixekizumab <u>R. Warren</u> , D. Ilo, L. Berggren, T. Kent, S.H. Kiri and J. Barker
P29	Severe chronic hand eczema is poorly recognized in primary-care settings <u>A. Keszegpál</u> , M. Goodfield and M. Wittmann
P30	The cost-effectiveness of sun, sea and psoriasis <u>R. Browne</u> and B. Gee
P31	South East Scotland Workload Study 2015: contribution of nurse-led services <u>C. Leitch</u> , S.K.A. McCormack, D. Tabor, V. Van-de-Velde, E. Natafji and A. Holme
P32	International variability in inclusion criteria for atopic dermatitis clinical trials: a systematic review P. Vakharia, R. Chopra and <u>J. Silverberg</u>
P33	Current practice of premethotrexate chest radiography

S.T. Ngu and G. Wylie

Managing panniculitis in alpha-1 antitrypsin deficiency: a systematic review of the evidence behind treatment D. Sabbagh, B. Barmayehvar, T. Nguyen, R.G. Edgar and A.M. Turner

Don't fanny about: follow up women with vulval lichen sclerosus in the community

Atopic comorbidities among adolescents with psoriasis: a 15-year population-based cross-sectional study E. Galili, N. Astman, R. Shreberk-Hassidim, I. Merdler and A. Barzilai

18 Week Support is a clinically-driven and consultant-led organisation. We support existing NHS resources with the management of waiting lists, focussing on the provision of insourcing support for Trusts that have short-term or longer-term challenges with capacity. We feel passionately about the services we provide and strongly believe that they can help drive cost efficiencies in the NHS.

AbbVie is a global, research-based biopharmaceutical company formed in 2013 following separation from Abbott Laboratories. The company's mission is to use its expertise, dedicated people and unique approach to innovation to develop and market advanced therapies that address some of the world's most complex and serious diseases. Together with its wholly-owned subsidiary, Pharmacyclics, AbbVie employs approximately 29,000 people worldwide and markets medicines in more than 170 countries. For further information on the company and its people, portfolio and commitments, please visit www.abbvie.co.uk.

Brain Skin Colloquium Monday 9th – Tuesday 10th October 2017

The brain-skin connection is emerging as an area of significant clinical and research interest given that there is a large body of data which demonstrates the impact of the brain on the skin and vice versa. Following a successful Stress and Skin Symposium held at Cornell Weill Cornell University, New York in June 2006, the time is ripe to gather experts from Europe and North America to present recent novel research data as well as the clinical application of such advances.

The meeting will aim to discuss: (i) Interactions between the nervous system and skin whilst providing a clinical update of the latest developments in this key area; (ii) Facilitate networking and collaboration between investigators which could lead to scientific and therapeutic advances. Consequently, the meeting will be of great value to clinicians (in particular dermatologists, however, psychologists, psychiatrists and neurologists would also be interested in this meeting) and scientists including immunologists, cell biologists, experts in signal transduction, cancer biologists and scientists interested in connective tissue.

ISDP Glasgow 2017 28 - 30 September 2017 | Glasgow | Scotland | UK

isdp2017.com email: conference@bad.org.uk

Invitation

We are delighted to invite you to the XXXVIII Symposium of the International Society of Dermatopathology, the leading International meeting in the field of Dermatopathology. By visiting the website www.isdp2017.com you will see the exciting programme that we have in place.

Registration includes: Diagnostic features of melanocytic lesions, Update on molecular pathology of melanocytic lesions with CPC, SCC and related neoplasia, AFX/PDS, New perspectives in skin cancer, Adnexal tumours, Lymphoma, Inflammatory Dermatopathology, Infections, Hair and Nails, Soft tissue tumors, Pediatric dermatopathology, Pitfalls in Dermatopathology, Digital Dermatopathology, The Internet and Social Media, and Quality Assurance, Cancer datasets and standardised reporting. Proferred papers sessions – please submit abstracts by 19 June 2017 (abstracts to be published in Am J Dermpath) Videomicroscopy tutorials for most sessions (no extra fee). The ever popular Self Assessment (no extra fee) - digitally scanned slides to view prior to the meeting.

The state of the art Technology & Innovation Centre of the University of Strathclyde will host the Symposium in a central location within walking distance of hotels and we are sure that Glasgow with its wonderful buildings, shops and restaurants will be a wonderful host city, with a chance to explore the beautiful Scottish countryside beyond. The British Association of Dermatologists Conference team is assisting with the organisation. Please direct your interest to conference@bad.org.uk

I hope to welcome you to Glasgow in 28-30 September 2017.

Dr Paul Craig, ISDP Glasgow 2017 Symposium President

XXXVIII Symposium of International Society of Dermatopathology
